Dear Dr. Lee,

Re: Delta Fire Department Participation as COVID-19 Immunizers

Thank you for your letter dated April 1, 2021, requesting Delta's support in expanding your pool of COVID-19 immunizers. I am very pleased to offer additional support from Delta's Fire Department to help accelerate the vaccination program.

Delta's firefighters are currently trained to Emergency Medical Responder level and the additional online training has been offered to them. We are continuing to enroll them into the Clinical Lab and Proficiency Skills Checklist training, as it is made available by Fraser Health.

We have advised your staff that our trained firefighters will be available to fill staffing needs at immunization clinics effective April 10, 2021. We appreciate this opportunity to assist in BC's largest immunization strategy ever, and would like to thank Fraser Health for its leadership in co-ordinating this enormous effort.

Yours truly,
