

Burns Bog Ecosystem Review

Zones of ecological viability

- Zone 1
- A** Areas within the water mound with attributes required to preserve the viability of Burns Bog
- B** Areas outside the water mound with attributes required to preserve the viability of Burns Bog
- Approximate boundary between zones 1 and 2
- Zone 2**
Areas with several attributes supporting, but not required for the viability of Burns Bog
- Zone 3
Areas with few or no attributes supporting the viability of Burns Bog
- Insufficient Data
- Ecological bog boundary
- Hydrological bog boundary

Figure 6.10
Summary map of ecological viability in Burns Bog. For discussion of the basis of the zones and zone boundaries, see 6.7.
