

All applications for rezoning, subdivision, development permit, development variance permit, soil removal permit and demolition permit are to be accompanied by a completed questionnaire in order to determine if your site will be subject to the Ministry of Environment's Site Profile review for contaminated soil.

Please fill out and sign the following sections. If you are not the owner of the land, please complete the owner authorization section of the land use and development application form. Staff will evaluate this questionnaire and advise you if a Site Profile application will be required.

If a Site Profile is required, it will be processed in parallel with your land use and development application. Completed Site Profiles submitted to the City will be forwarded to the Ministry of Environment for evaluation. Staff are not able to approve your land use and development application until this evaluation is completed by the Ministry of Environment.
