### 92A Avenue (River Road to 114 Street) Roadway and Utility Improvements

Dear Owner/Occupant:

Thank you for your feedback at the public meeting held on November 13, 2012 at Delview Secondary School and for the written comments received.

Based on feedback from residents, the road widening has been significantly lessened and the existing on-street parking will remain relatively as is. The conceptual design for the proposed improvements along 92A Avenue has now been modified and a revised plan is attached for your further review. This revised concept has been presented to the Annieville School Parent Advisory Committee and has received their support.

The proposed improvements along 92A Avenue between River Road and 114 Street now include:

- A new multi-use pathway on the south side of 92A Avenue between Hardy Road and 114 Street to accommodate both pedestrians and cyclists;
- A new multi-use pathway along the west side of 114 Street between 92A Avenue and 92 Avenue to provide a cycling connection to the imminent improvements on 92 Avenue;
- Minor pavement widening on the north side of 92A Avenue between Ebor Road to just east of Hardy Road including barrier curb and drainage improvements;
- Widening on the north side of 92A Avenue between River Road and Ebor Road (to be completed as part of an upcoming development project);
- A new raised crosswalk on 92A Avenue between 112 Street and 114 Street;
- Pavement rehabilitation; and,
- Watermain replacement.

Cycling directional signage will be installed to encourage cyclists to use Hardy Road to access River Road (rather than use 92A Avenue), as the grades on Hardy Road are more gradual.

A comment sheet is enclosed if you have further comments regarding the proposed improvements. Please submit the attached comment sheet by **Monday, May 13, 2013** by fax (604-946-7492), email [engineering@corp.delta.bc.ca](mailto:engineering@corp.delta.bc.ca), in person to the Engineering Department at Delta Municipal Hall, or by mail using the postage paid self-addressed envelope enclosed.

Subject: Invitation to Public Information Meeting – 92A Avenue Roadway and Utility Improvements  
File No: R12185

Page 2 of 2

Design will be completed in 2013 and construction is scheduled to take place in 2014 (subject to Council approval).

Should you have questions regarding the revised conceptual designs, please feel free to contact the undersigned at 604-952-3818 or [hcumbridge@delta.ca](mailto:hcumbridge@delta.ca).

Yours truly,

Heather Cumbridge, ASCT  
Project Manager/Technologist

CC: Mayor and Council  
George V. Harvie, Chief Administrative Officer  
Steven Lan, Director of Engineering  
Trent Reid, Manager of Design and Construction  
Harald Fograscher, Manager of Utilities  
Gordon Botha, Roads Engineer  
Alan Chiang, Engineering Projec
